Section A: Who Will Follow This Notice?

This Notice describes SmileScapes Dentistry (hereafter referred to as 'Provider') Privacy Practices and that of:

Any workforce member authorized to create medical information referred to as Protected Health Information (PHI) which may be used for purposes such as Treatment, Payment and Healthcare Operations. These workforce members may include:

- All departments and units of the Provider.
- Any member of a volunteer group.
- All employees, staff and other Provider personnel.
- Any entity providing services under the Provider's direction and control will follow the terms of this notice. In addition, these entities, sites and locations may share medical information with each other for Treatment, Payment or Healthcare Operational purposes described in this Notice

Section B: Our Pledge Regarding Medical Information

We understand that medical information about you and your health is personal. We are committed to protecting medical information about you. We create a record of the care and services you receive at the Provider. We need this record to provide you with quality care and to comply with certain legal requirements. This Notice applies to all of the records of your care generated or maintained by the Provider, whether made by Provider personnel or your personal doctor.

This Notice will tell you about the ways in which we may use and disclose medical information about you. We also describe your rights and certain obligations we have regarding the use and disclosure of medical information.

We are required by law to:

- Make sure that medical information that identifies you is kept private;
- Make easily available to you this Notice of our legal duties and privacy practices with respect to medical information about you; and
- Follow the terms of the Notice that is currently in effect.

Section C: How We May Use and Disclose Medical Information About You

The following categories describe different ways that we use and disclose medical information. For each category of uses or disclosures we will explain what we mean and try to give some examples. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one of the categories.

- **Treatment.** We may use medical information about you to provide you with medical treatment or services. We may disclose medical information about you to doctors, nurses, technicians, health care students, or other Provider personnel who are involved in taking care of you at the Provider. For example, a doctor treating you for a broken leg may need to know if you have diabetes because diabetes may slow the healing process. In addition, the doctor may need to tell the dietitian if you have diabetes so that we can arrange for appropriate meals. Different departments of the Provider also may share medical information about you in order to coordinate the different things you need, such as prescriptions, lab work and x-rays. We also may disclose medical information about you to people outside the Provider who may be involved in your medical care after you leave the Provider, such as family members, clergy or others we use to provide services that are part of your care.
- **Payment.** We may use and disclose medical information about you so that the treatment and services you receive at the Provider may be billed to and payment may be collected from you, an insurance company or a third party. For example, we may need to give your health plan information about surgery you received at the Provider so your health plan will pay us or reimburse you for the surgery. We may also tell your health plan about a treatment you are going to receive to obtain prior approval or to determine whether your plan will cover the treatment.
- **Healthcare Operations.** We may use and disclose medical information about you for Provider operations. These uses and disclosures are necessary to run the Provider and make sure that all of our patients receive quality care. For

example, we may use medical information to review our treatment and services and to evaluate the performance of our staff in caring for you. We may also combine medical information about many Provider patients to decide what additional services the Provider should offer, what services are not needed, and whether certain new treatments are effective. We may also disclose information to doctors, nurses, technicians, health care students, and other Provider personnel for review and learning purposes. We may also combine the medical information we have with medical information from other Providers to compare how we are doing and see where we can make improvements in the care and services we offer. We may remove information that identifies you from this set of medical information so others may use it to study health care and health care delivery without learning a patient's identity.

- **Appointment Reminders.** We may use and disclose medical information to contact you as a reminder that you have an appointment for treatment or medical care at the Provider.
- **Treatment Alternatives.** We may use and disclose medical information to tell you about or recommend possible treatment options or alternatives that may be of interest to you.
- **Health & Related Benefits and Services.** We may use and disclose medical information to tell you about health & related benefits or services that may be of interest to you.
- **Fundraising Activities.** If we intend to use your medical information for fundraising purposes, we will inform you of such intent and that you have a right to opt out of receiving fundraising communications. We may use information about you to contact you in an effort to raise money for the Provider and its operations. We may disclose information to a foundation related to the Provider so that the foundation may contact you into raising money for the Provider. We only would release only contact information, such as your name, address and phone number and the dates you received treatment or services at the Provider. If you do not want the Provider to contact you for fundraising efforts, you must notify us in writing. You will be given the opportunity to 'opt-out' of these communications.
- **Authorizations Required.** We will not use your protected health information for any purposes not specifically allowed by Federal or State laws or regulations without your written authorization; Specifically the following types of uses and disclosures of your medical information require an authorization; 1) disclosure of psychotherapy notes; 2) disclosures for marketing purposes; and 3) disclosures that constitute a sale of protected health information. Other uses and disclosures not described in the NPP will not be made unless an individual provides an authorization and that authorizations may be revoked prospectively at any time by written revocation.

- **Emergencies.** We may use or disclose your medical information if you need emergency treatment or if we are required by law to treat you but are unable to obtain your consent. If this happens, we will try to obtain your consent as soon as we reasonably can after we treat you.
- **Communication Barriers.** We may use and disclose your health information if we are unable to obtain your consent because of substantial communication barriers, and we believe you would want us to treat you if we could communicate with you.
- **Facility Directory.** We may include certain limited information about you in the Facility Directory while you are a patient of the Provider. This information may include your name, location in the Provider, your general condition (e.g., fair, stable, etc.) and your religious affiliation. The Provider Directory information, except for your religious affiliation, may also be released to people who ask for you by name. Your religious affiliation may be given to a member of the clergy, such as a priest or rabbi, even if they do not ask for you by name. This is so your family, friends and clergy can visit you in the Provider and generally know how you are doing. You may Opt-out of this Directory by providing a written request at the time of admission or registration.
- **Individuals Involved in Your Care or Payment for Your Care.** We may release medical information about you to a friend or family member who is involved in your medical care and we may also give information to someone who helps pay for your care, unless you object and ask us not to provide this information to specific individuals, in writing. In addition, we may disclose medical information about you to an entity assisting in a disaster relief effort so that your family can be notified about your condition, status and location.
- **Research.** Under certain circumstances, we may use and disclose medical information about you for research purposes. For example, a research project may involve comparing the health and recovery of all patients who received one medication to those who received another, for the same condition. All research projects, however, are subject to a special approval process. This process evaluates a proposed research project and its use of medical information, trying to balance the research needs with patients' need for privacy of their medical information. Before we use or disclose medical information for research, the project will have been approved through this research approval process, but we may, however, disclose medical information about you to people preparing to conduct a research project, for example, to help them look for patients with specific medical needs, so long as the medical information they review does not leave the Provider. We will almost always generally ask for your specific permission if the researcher will have access to your name, address or other information that reveals who you are, or will be involved in your care at the Provider.

- **As Required By Law.** We will disclose medical information about you when required to do so by federal, state or local law.
- **To Avert a Serious Threat to Health or Safety.** We may use and disclose medical information about you when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person. Any disclosure, however, would only be to someone able to help prevent the threat.
